

ADVANCED COMPOSITE CLADDING

ADVANCED COMPOSITE CLADDING

The VistaClad lightweight composite cladding system is revolutionising how cladding works with an innovative clip strip which locks boards into place using reliable dual spring technology. VistaClad is available in a range of colours and finishes, with trim and accessories, as a complete cladding system, designed for ease of installation. Backed by an industry-leading warranty, this low-maintenance, weather-resistant cladding is a smart, cost-efficient investment in your project, and a sustainable investment in our planet.

VISTA CLAD SYSTEM COMPONENTS

The VistaClad system combines Eva-Last composite technologies with an innovative installation process to provide a robust and convenient cladding solution. The resultant hidden fixing generates an unblemished finish and avoids the limitations or inconvenience of fastening through composite.

Composite Cladding Boards

Clip Strips

Adapters and Trim Profiles

CUTTING-EDGE SUSTAINABLE CLADDING

VistaClad composite cladding breathes vibrancy into your home or office space and enhances your walls with the attractive look of hardwoods. Let routine maintenance and premature replacement be things of the past as you look to the future with one of the most cutting-edge, and durable cladding products available. VistaClad is available in a selection of natural looking colours and comes with a complementary trim solution for a neat and tidy finish.

TAKE HOME THE BENEFITS

CLIP LOCK DESIGN

Boards securely click & lock into place to withstand strong winds

COMPLETE CLADDING SOLUTION

Innovative system with concealed fastening & trim for a finished look

LIGHTWEIGHT

Smart system engineered for lighter weight & better airflow

VENTILATED & INSULATED

Design allows for system ventilation & natural insulation

LOW-MAINTENANCE

Ideal for large-scale projects & application at height

DECAY RESISTANT

Resists biodegradation, corrosion, insects, UV, & harsh weather

COST-EFFECTIVE SYSTEM

Save on fast, simplified installation & overall upkeep

ECO-FRIENDLY

Sustainable manufacturing & use of raw materials

VISTA CLAD CLADDING IN APEX PVC COMPOSITE

VistaClad is available in Apex PVC composite. Backed by a 30-year warranty, Apex lightweight, capped composite is an ideal cladding material. The dual colour finish of Apex provides an exceptionally natural looking composite which embodies the essence of timber in a range of nuanced shades to complement your overall project. Install this environmentally friendly, low-maintenance cladding vertically or horizontally to suit your style.

Apex

PVC COMPOSITE CLADDING MATERIAL

APEX FOAMED-PVC CLADDING PROFILE

Cross section	Product description	Dimensions	Coverage	Mass
	Two grooves	163 x 24.5 mm	6.6 m ²	1.6 kg/m

TECHNOLOGY: **Apex**

VISTA CLAD IN APEX DUAL TONE COLOUR TECHNOLOGY

The Apex dual tone colour range offers a sculpted grain finish for more natural looking cladding. Each cladding board has an extra layer of colour added to create the subtle variances found in timber. The sculpted grain finish produces a texture that embodies the look of wood to give your exterior walls the beauty of timber cladding in a more resilient, low-maintenance, and eco-friendly composite option.

Sculpted Grain
Surface Finish

THE CLIP STRIP

The VistaClad clip strip uses a punched spring design that allows the cladding boards to be easily and securely clicked into place. Three epoxy-coated, zinc-galvanised strip profile options provide flexibility in application and allow for optimal ventilation and drainage.

The dual spring-loaded clip creates a rigid hold and locks the boards in place.

FLAT CLIP STRIP

The flat clip strip is fitted directly to the wall substrate or frame. As a result, this solution provides the smallest ventilation/drainage cavity and fixing can only be done through the face of the clip strip.

Dimensions	40 x 11.7 mm (1.8 m lengths)
Weight	0.4 kg/m

TOP HAT CLIP STRIP

The top hat clip strip fits over 38 mm (timber) and 40 mm (composite and steel) supports. As a result, the ventilation/drainage cavity will be influenced by the thickness of the support as well as the fixing method but the minimum depth the top hat profile allows for is 25.4 mm. Fixing can be done through the face, the side, and either side of the clip strip base. Fixing through the side allows for the top hat to be plumbed quickly and easily.

Dimensions	85.4 x 35.9 mm (2.7 m lengths)
Weight	1.2 kg/m

NYLON ADAPTORS

ALUMINIUM TRIM PROFILES

AVAILABLE TRIM COLOURS:

- Black
- Brown
- Light Tan

TRIM APPLICATIONS

Trim accessories hide the structure for a neat final look and can be installed using sealing strips to improve the weather resistance of the cladding surface. The clip strip allows for easy guided placement of the adaptors and the universal trims may be used with VistaClad or any cladding boards with a thickness of 20.5 to 26.5 mm.

LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
